Box 18

**16.2.2010**

**Dear Sirs,**

**It would appear that a member of your Review Team, Professor Boulton, is a former employee of the University of East Anglia, and hence fails to meet the criterion of independence.**

**Professor Boulton is on record as an advocate of the hypothesis of anthropogenic global warming and a former colleague of addressees of the emails under investigation. I submit that his predetermined views disqualify him from sitting on the Inquiry.**

**Yours sincerely,**
